关于我们 About the Institute

多模态研究是一个综合多种路径的整合性范式，具有鲜明的跨学科属性，已成为国际前沿领域。同济大学语言学与多模态符号学研究所是以跨学科、多模态等视角对语言交际与符号意义开展学术研究及人才培养的专门机构，目前已加入中国语言与符号学研究会发起的中国符号学基地联盟。

Tongji Institute of Linguistics and Multimodality (TILM) is one of the first independent institutions of its kind in China. Multimodal research is a comprehensive paradigm, integrating multiple approaches to various spheres, ranging from humanities and social sciences to natural sciences and engineering technologies. TILM is a specialized organization for research and talent training on communication and semiotics from the interdisciplinary and multimodal perspectives. Being interdisciplinary in nature, TILM finds itself on the frontier of numerous studies from around the world. TILM is a member of the China Semiotics Alliance led by the China Society of Language and Semiotics.

发展概况 Development

研究所的语言学与多模态研究成果丰富、特色鲜明。团队由我国著名多模态研究专家同济大学特聘教授张德禄、同济大学兼职教授顾日国领衔，已在该领域发表了一系列高水平论文及专著，成果数量与质量位列中国大陆前列，形成了国内多模态研究的“同济品牌”。

TILM has made striking achievements in linguistic and multimodal studies, which have been widely published in their respective fields of study. The research team of the institute is led by Zhang Delu, Distinguished Professor of Tongji University and Gu Yueguo, Adjunct Professor of Tongji University. In terms of both quantity and quality, their achievements rank among the top in mainland China, forging the “Tongji Brand” of multimodal research.
The institute is inter-disciplinaryly sustained, problem-orientated and its development is distinctively featured. First, it is multi-line parallelized. Relevant studies it has conducted adopt different approaches, such as multimodal discourse analysis and multimodal corpus and they are involved in such multiple fields as social semiotics, educational semiotics and pathological semiotics. Second, it is application focused. TILM actively engages in research on geronto-linguistics and foreign language education from a multimodal perspective. Third, it is mature. TILM has organized numerous multimodal conferences and published a series of books entitled “Multimodality and Special People Speech Studies Series”. Additionally, team members have individually hosted the multimodal research columns in a wide array of academic journals.
